

Moving on

At the end of primary school many of our children transfer to Queen Elizabeth School in Kirkby Lonsdale. Some also travel to Settle or the Grammar schools in Lancaster. We have strong links with these schools and our cluster primaries for sport.

Caving in the Yorkshire Dales.

Christmas activity day

Our Easter display.

**WE WELCOME VISITS TO
SCHOOL**

**PLEASE CONTACT THE
HEADTEACHER TO
ARRANGE A VISIT**

LECK ST PETER'S CHURCH OF ENGLAND PRIMARY SCHOOL & NURSERY

“A rural school in an idyllic setting”

“Valuing one another as created in the
image of God and therefore of infinite
worth.”

LECK ST PETER'S CE SCHOOL & NURSERY

Our place in the community

Leck St Peter's is a rural voluntary aided school within the Diocese of Blackburn, serving the parishes of Leck, Tunstall, Ireby, Burrow & the surrounding area as far as Kirkby Lonsdale, Ingleton and Bentham.

There has been a school on the site since before 1857 when the original building was erected. Since then our school has been updated to provide accommodation for all aspects of the modern curriculum.

Looking out on our Edinburgh residential visit

There is a strong commitment to care and a tangible family atmosphere within our two classes. Although we are a small school, we have a strong sense of our place in the wider world.

We maintain a strong affiliation to both the Anglican church of St Peter and to the Methodist Communion. Our Christian foundation is reflected in our policies, practice and ethos.

Encouraging Achievement

We have good results in our SAT tests for English and Maths but we also recognise the importance of an education that meets the different needs of our children in the arts, IT, science, sport, languages, geography and history.

The Curriculum

The school is very well resourced and provides a curriculum for excellence and enjoyment for all our school family within the National Curriculum frameworks. Children are taught within class, small groups and individually at various times.

Our children have a strong tradition of outdoor learning at school. All children learn through practical activities including Forest School and outdoor activities, which take place regularly throughout the year.

We actively fundraise for global causes such as the shoebox appeals and Bishop's Harvest Appeal.

We have a ratio of one computer per child, library and early years areas, interactive boards in every room and an enviable outdoor environment including a pond, yurt, woodland, field and gardens.

Nursery Provision

Our nursery operates 5 mornings a week offering up to 15 hours of free education for 3 year old children.

Extra curricular activities

We have an exciting and fun range of clubs and activities. These include:

- Instrument lessons
- Sports clubs
- Wellness
- Film club
- Gardening

We also enjoy visits to the theatre, church, museums and local events such as the Westmorland Show as well as outdoor learning, residential experiences and activity days,

Our hall mural created by our children.
